James O'Brien

Frontend Developer
jamesfromonline@gmail.com - jame5.co - github.com/jamesfromonline

Summary

Experienced frontend developer that is up to date with ReactJS, Gatsby, JavaScript, and CSS3/SCSS. Inspired by unique and creative UI designs and implementations. Looking for opportunities to better my skills as a developer at every turn.

Experience

Self Employed | Frontend Developer | April 2016 - Current
- Translated mockups into functioning code using JavaScript, React, CSS/SCSS, and Gatsby.
- Successfully maintained multiple clients' web platforms and CMS systems.
- Built out custom client automation tools using JavaScript, jQuery, Node, and CSS.
- Utilized agile-focused tools such as Asana, Trello, and TeamWork to manage tasks and time.

Nrdstr | Frontend Developer/Co-Founder | March 2020 - January 2021
- Successfully designed and built client websites utilizing React, Gatsby, and CSS/SCSS.
- Maintained existing client websites that use platforms such as Wordpress and Shopify.
- Designed, built, and launched company website using Gatsby, SCSS, GraphQL, and Wordpress.

Gooee | Frontend Developer | June 2017 - January 2018
- Worked closely with UI Designer to translate Invision mockups into high quality code.
- Created responsive, well structured stylesheets using CSS3 and Stylus.
- Successfully redesigned and built the firmware UI for company hardware using CSS and JavaScript.

Education

The Iron Yard | Frontend Engineering | Graduated June 2017
